PORTFOLIO

Hi There,
I'm Stephanie

Product Manager, Front-End Developer, and UI/UX Designer – Driving Innovative Solutions, Crafting Clean Code, and Designing Beautiful Experiences.

Creator Journey

ABOUT ME

I'm a passionate and versatile professional with a unique blend of skills in software development, SharePoint development, data analysis, product management, and UI/UX design.

My key strengths lie in delivering user-centered products, optimizing workflows through SharePoint solutions, and producing clean, efficient code in development projects. Whether designing intuitive interfaces or managing product roadmaps, I focus on creating experiences that are both functional and aesthetically pleasing.

I believe in collaborative problem-solving, where diverse perspectives come together to drive creative solutions. My approach centers on maintaining open communication, fostering cross-functional teamwork, and focusing on delivering value to both users and stakeholders

WHAT I DO

Product Management

SharePoint Solutions Developer

PowerApps Developer

UI/UX Design

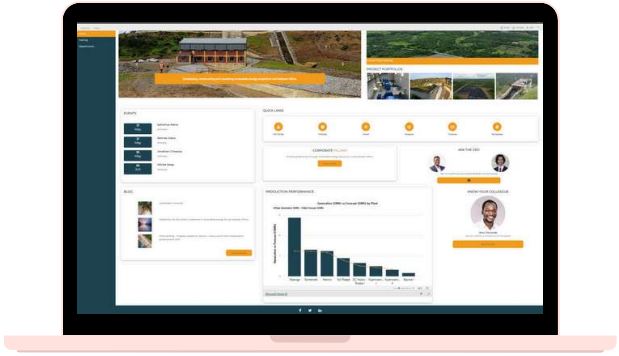
Data Analysis

Front-end Developer

SKILLS

- SHAREPOINT
- POWERAPPS
- PRODUCT DESIGN
- WEB DEVELOPMENT
- BUSINESS ANALYSIS
- VERSION CONTROL
- PRODUCT MANAGEMENT
- DATA ANALYSIS
- PROTOTYPING
- SYSTEM ARCHITECTURE
- AGILE METHODLOGIES
- PRODUCT LIFECYCLE

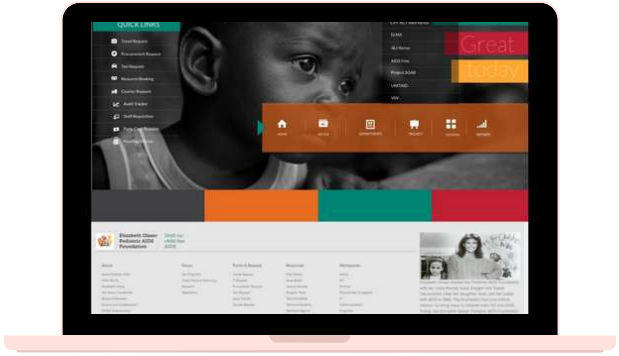
SHAREPOINT PROJECTS



Serengeti Energy

Custom Intranet Portal

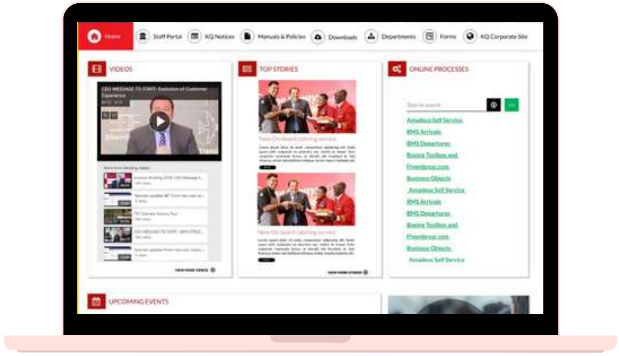
Designed and developed a centralized intranet for employees, enabling easy access to company policies, HR resources, and project documents.



EGPAF Kenya

Customized Internal Processes

Developed an automated fuel procurement workflow for tracking fuel consumption and travel costs for employees.

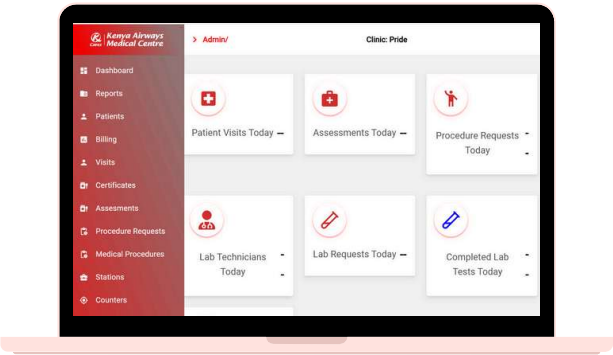


Kenya Airways

Custom Sharepoint Site for Internal Comms

Designed and implemented a centralized knowledge base with articles, FAQs, manuals & policies, and company policies, upcoming events, access to all automated processes and department units

PRODUCT MANAGEMENT PROJECTS

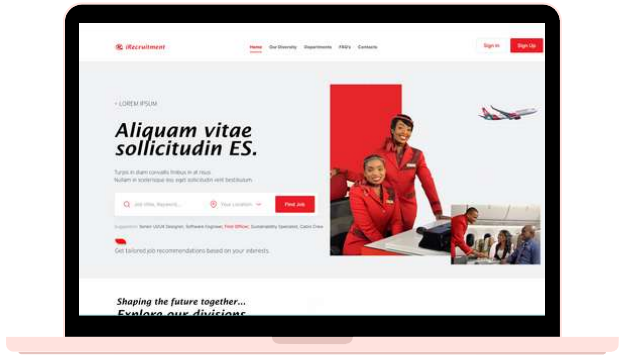


FortiCare

Hospital Management System

Delivered the Minimum Viable Product (MVP) with key features such as patient registration, medical history tracking, appointment scheduling, lab processing, pharmacy dispensing and a billing system.

Worked to integrate it with crucial systems such as SMART

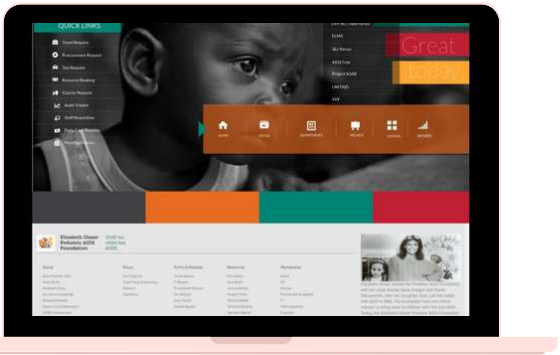


iRec

Employee Recruitment Platform

Developed an MVP with job posting capabilities, candidate database management, automated candidate screening, and interview scheduling tools.

Integrated it with Microsoft Outlook for scheduling



Customer Support Hub

Customer Relationship Management System

Developed a comprehensive product roadmap that outlined the phased development of key CRM features. Introduced a platform to handle customer tickets, claim processing, view customer history and management of agent queues and backlog

WEB DEVELOPED PROJECTS

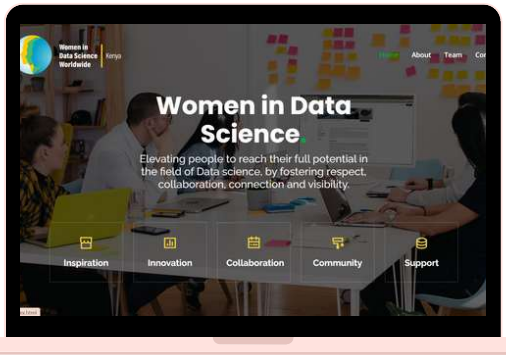
Urgent Action Africa

Website Development

Designed and developed a responsive, user-friendly website with a focus on accessibility and engagement.

Integrated WordPress with custom themes to enable easy content updates, including blogs, news, event updates, and donation calls.

https://www.uaf-africa.org/



WiDS Kenya

Website Development

Developed a sleek, professional website for WiDS Kenya, with a focus on promoting the annual conference and its objectives

Helps to manage event registrations, datathon workshops and speaker reviews
